

## Broughty Ferry Flood Protection Scheme Newsletter

December 2021 - Merry Christmas!

### Progress on site

As we now enter winter, McLaughlin & Harvey continue to make good progress on Flood Protection Scheme and remain on schedule for completion of the project early 2022.

Following the completion of Douglas Terrace, James place and sections of Fisher street which are now open, continuing works resume further up Fisher street resurfacing the road and pavements. Bath street road has reopened to the public with new road markings indicating the one-way system that is in place. Further along works continue progressing on the beach at Beach Crescent with the installation of large concrete steps that have been put in place, we continue to work on the roads and pavements progressing to the top end of Fisher street and Gray street.

Please note McLaughlin & Harvey remove the current traffic management on Beach Crescent on the 22<sup>nd</sup> Dec which will leave the carriageway, north footway and car parking on Beach Crescent open to the public. McLaughlin & Harvey project management staff are pleased to be assisting with the “New Year’s Dook”. Please be advised that Beach Crescent from Gray Street to St Vincent Street will be closed from 6pm 31<sup>st</sup> Dec to the afternoon of the 1<sup>st</sup> Jan 2022. We would appreciate people removing their vehicles prior to this time and we hope to see you there!

**Considerate Constructors Scheme** The site has been registered with the Considerate constructor’s scheme. The scheme monitors visit the site to assess how well they are performing as a Considerate Constructor in terms of community engagement, safety, appearance, workforce and environmental compliance Get in touch <http://www.ccscheme.org.uk/feedback/> tel: 0800 783 1423 email: [enquiries@ccs.org.uk](mailto:enquiries@ccs.org.uk)

### Metal Tech Decortative Gates Competition

Congratulations to Martha Crosbie and Joseph Speilman on the decorative gates competition we hosted with their great winning designs. These gates will be installed onto the Broughty Ferry Flood Protection Scheme site in the new year! The winners had a great experience seeing their gates being manufactured at Metal Tec in Dundee before they are to be permanently installed.

### Grove Academy Employability Workshop

As part of McLaughlin & Harvey's Community Social Value commitments, Katy Bald MCL&H Community Liaison and Paul Wilson from Dundee United Community Trust delivered an Employability presentation to S3 pupils at grove Academy. The pupils were given an overview of skills and qualities they will develop to go and to use in any career they choose to do.

### Abertay University Fresher's Site Visit

Civil Engineer fresher's from Abertay University, along with Dr Rebecca Wade, visited the site to see the live progress that is currently ongoing in the Flood Protection Scheme Site. It was a lovely clear day for the students to see the progress of the site and the potential careers that lie ahead of them! McLaughlin & Harvey happily support the local community in a variety of aspects.

#### How to contact us:

If you are affected by our works in any way or perhaps you want to know more about what we're doing. The site letter box is located at the main Site office on Beach Crescent or you can drop us an email at: [bffps.community@mclh.co.uk](mailto:bffps.community@mclh.co.uk)

**Community Liaison Officer:**  
**Katy Bald**

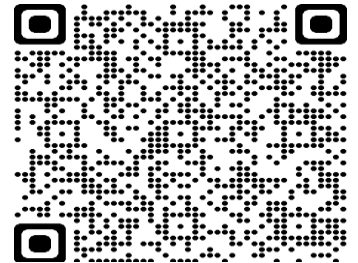

**Tel: 07584 777 227**

**Email:**
